“

“They need their education, they need to look around them, see what needs to be done, and get it done. It's not gonna happen instantly. It may take twenty, thirty, forty years to get some things done that need to be done, but they need to make sure that our children are not, in the Inland Empire, are not brought up in poverty. And if they are, then we need to do something to make sure that they get out. Our high school graduation rates for black males need to be boosted. Graduation rates from high school for blacks, period, needs to be 100 percent. What can you do to contribute to make that happen? What can you do to help the city of San Bernardino, the city of Redlands, the city of Riverside?”
